

## SAREA TOP ROPE INSTRUCTOR ASSESSMENT

Candidate's name: ..... Location:.....

Assessor's name: .....

Date: .... /.... /.... Time started: ..... Time finished: ..... (Time allowed: 4hrs)

### Please note:

- All equipment for the assessment must be provided by the candidate, unless otherwise arranged. This may include, but is not limited to, an abseil rope, climbing rope, prusiks, pulley, carabiners, slings, lead equipment, harness, helmet and belay device.
-  • Your assessment may be immediately concluded if you fail to maintain the personal safety of yourself or any person under your direct supervision.
- This assessment is for the qualification of SAREA Top Rope Instructor. You must already hold a SAREA Top Rope Guide certificate (or hold an equivalent qualification), prior to this assessment.
- You must not conduct yourself as a qualified SAREA Instructor until your assessments, logbook and first aid certificate have been sighted and approved by the SAREA Assessors and Advisors Panel, and you have been subsequently notified by the Coordinating Assessor.

I have read and understood the above information: ..... (Candidate's Signature)

### Assessment Outline:

The Top Rope Instructor assessment is focused on instructional skills. Therefore, during parts of the assessment, the candidate will take on the role of **instructor**, and the assessor will take on the role of **novice**. The assessor will ask novice based questions throughout the assessment. If at any point the assessor needs to step out of their novice role to ask assessor based questions, they will let you know prior to this.

For each component, there should be a safety briefing on how to minimize and manage incidents, and instruction on how to complete the activity competently. Please note that each component is assessed individually, and all areas of safety and instruction must be covered each time.

1. Meet candidate at pre-arranged location, e.g. the Top Gate at Morialta. Candidate to supply all own equipment, with assessor supplying their own harness, helmet, carabiners and belay device. Conduct pre-assessment checks (if items missing, e.g. First Aid kit, you may need to cancel assessment).
2. Candidate instructs assessor (as novice) in the following areas of abseiling instruction:
  - Single pitch, single rope abseil equipment and setup
  - Abseiling technique, safety and dealing with possible incidents
  - Single pitch double rope abseil, with rope retrieval
3. Candidate instructs assessor (as novice) in the skills of seconding on a single pitch lead climb of grade 12 or above.
4. Candidate instructs assessor (as novice) on how to set up a top rope bottom belay system, including a bottom belay anchor.
5. End of assessment and debrief. Show candidate this assessment sheet and discuss all items. A pass or fail cannot be advised at this time as is determined by the SAREA AA Panel and Board, not your assessor. You will be notified by the Coordinating Assessor of your result.

# SAREA TOP ROPE INSTRUCTOR ASSESSMENT

## 1. Pre-assessment Checks

- 1.1. Readily accessible first aid kit and mobile phone .....
- 1.2. Appropriate climbing equipment, with known history .....
- 1.3. Appropriate footwear and attire .....

## 2. Single Pitch Abseil Instruction

- 2.1. Provides safety brief to assessor.....
- 2.2. Instructs assessor in appropriate equipment for an independent abseil:
  - 2.2.1. Strengths and limitations of a range of different abseil devices.....
  - 2.2.2. Length, diameter & characteristics of prusik cords and knots.....
- 2.3. Instructs assessor in methods of maintaining personal safety.....
- 2.4. Instructs assessor in how to set up a single pitch, single rope abseil:
  - 2.4.1. Selecting an appropriate abseil site.....
  - 2.4.2 Multiple anchors - SRENEA .....
  - 2.4.3. Effective use of a prusik .....
  - 2.4.4. Safety of self and assessor maintained at all times.....
  - 2.4.5. Clear teaching cues and emphasis on safety .....
  - 2.4.6. Knot in end of abseil rope .....
- 2.5. Instructs assessor in abseiling techniques:
  - 2.5.1. Beginning edge, and overhangs.....
  - 2.5.2. Clearing obstacles .....
- 2.6. Instructs assessor in how to avoid and manage possible incidents:
  - 2.6.1. Inversion.....
  - 2.6.2. Jammed abseil device .....
  - 2.6.3. Jammed prussic .....
- 2.7. Instructs assessor in how to complete a single pitch double rope abseil:
  - 2.7.1. System set up to facilitate pulling rope through.....
  - 2.7.2. Knots in end of rope.....
  - 2.7.3. Safe and effective rope retrieval.....
